Stars

Summary:

Advantages:

- **Really light**
- **Cool and easy user interface**
- **Really quick scanning and removal**

Disadvantages:

- Not so good on detection
- Web blocking needs help, didn't get a warning saying "malicious Site," I would recommend a toolbar like McAfee to help block web pages!
- Behavioral blocking didn't seem to stay consistent!

According to my testing's, Kingsoft didn't do well to keep me safe from Trojans, malware, etc... I would not recommend this antivirus to users, but if you still want it for some reason, I would suggest to download a security toolbar like McAfee because there known for blocking web pages.
