## Caught Later By Behavioral Blocking, Firewall, Etc.:

1. Blocked- Firewall
8. Blocked- Firewall

### Hitmanpro and Malwarebytes results:

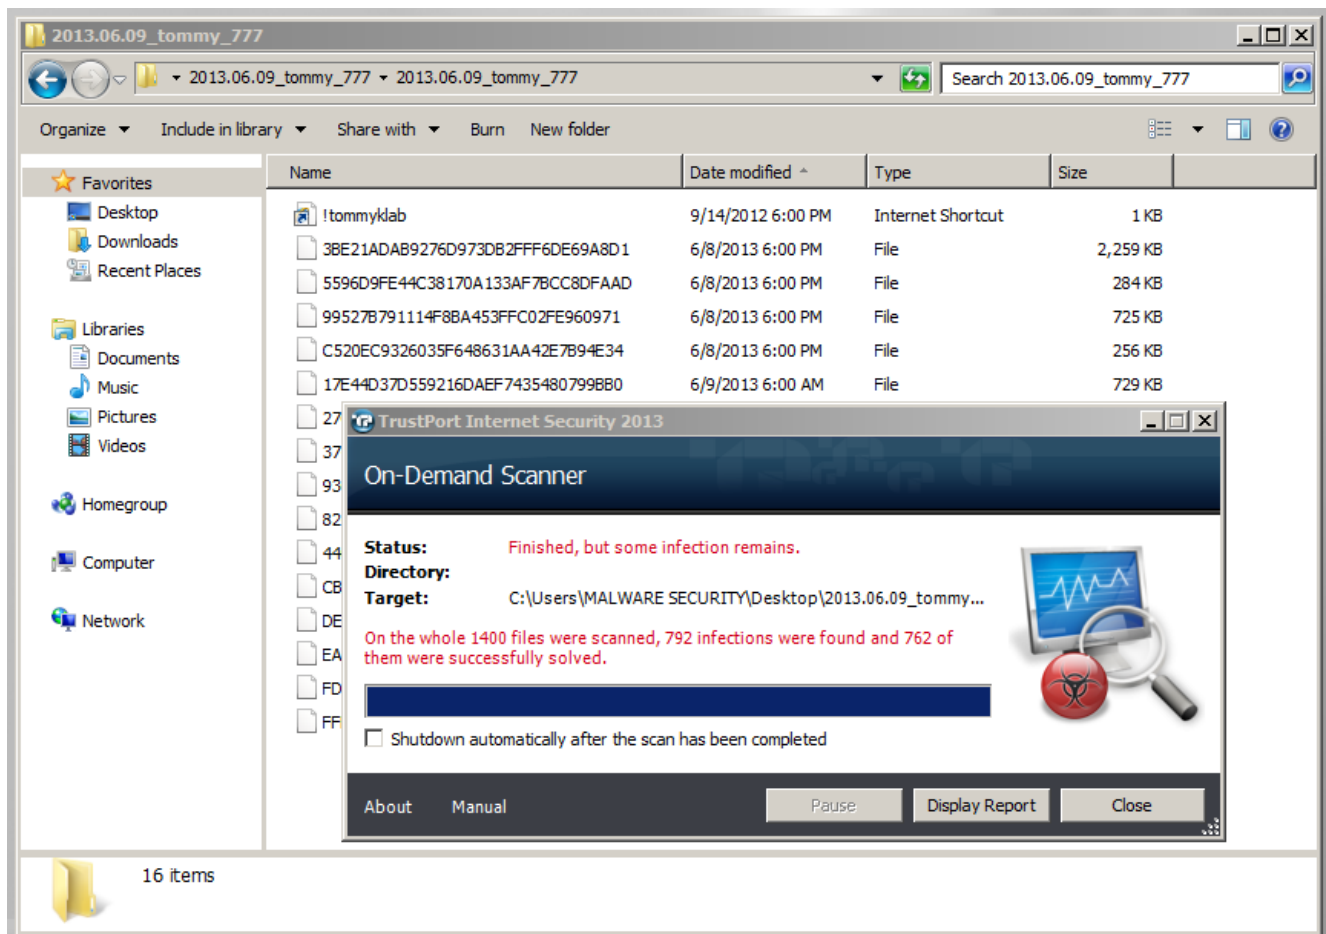

- **Malwarebytes detected the infection that was not caught later by TrustPort Internet Security 2013**

**Malware Pack Containing 778 Files (4 to 5 Day Old Files):**

- **$762/778 = 97.94\%$**

## 5 Star Rating:

- |  |          |
|--|----------|
| • 1 Star: User-friendly:               | 1/1 Star |
| • 1 Star: Low Ram Usage, 60mb or less: | 0/1 Star |
| • 1 Star: 24/30 Web Links, 80%:        | 1/1 Star |
| • 1 Star: Detection 85%+:              | 1/1 Star |
| • 1 Star: Behavioral Blocking, 50%+:   | 1/1 Star |

4/5

Stars

## Summary:

### **Advantages:**

- **Not even slow on computer**
- **Really easy user interface**
- **Does detecting and cleaning at the same time and its quick!**
- **Good on blocking links**
- **Good on behavioral blocking**
- **Detection rate is good even if pretty old files**

### **Disadvantages:**

- **Pretty high on ram usage**
- **When scanning pack of malware, it doesn't delete the files it detects, it renames it which is weird, so you have to go under settings and click on-demand protection, and you have to change it to "Quarantine Files."**

**According to my review, Trustport did well against all the stuff I threw at it. The only thing I found that didn't please me was the whole "renaming files," so when you guys buy this product, change it to "quarantine files" under on-demand protection. That's the only thing I changed in Trustport settings to make it not default settings. I would recommend this product.**

**Thanks for reading!**
