4/5

Stars

Summary:

Advantages:

- Easy User interface
- Fast update
- Good on web blocking
- Light on ram usage
- Good behavioral blocking

Disadvantages:

- **Detection should've been better since files are 2 to 3 days old, but nothing major!**
- **Detecting files is quick, but cleaning takes awhile!**
- **Detecting phishing sites should be a little better to make it perfect!**

According to my testing's, it almost got 5 of 5 star if it would've detected 85%+. The internet security suite is good and I would recommend it to users!
