**Stars**

## Summary:

### **Advantages:**

- **It's really light on the system**
- **User interface looks pretty cool**
- **Pretty fast Scanning**

**Disadvantages:**

- Not Great on web blocking, missed a lot of Phishing websites
- Detection was poor because files are 4 days old
- Behavioral blocking seems not to work

According to my testing's, Panda has not done great yet, but they can still improve since it's still in beta. I would not recommend this product yet until I test the final version to see if things are improved.

Thanks for Reading!
