- Low ram usage and not heavy at all
- Good Web blocking

- **Detection rate could be better, but hey, it passed 85% which is good**
- **Amazing behavioral blocking**
- **Quick scanning**

Disadvantages:

- None

According to my testing's, it's the best review I had so far. I couldn't think of a disadvantage, so in that case I would definitely recommend this antivirus to users. For right now, it's in beta, so you're going to have to wait!
