## Malware Pack Containing 191 Files (2 Day Old Files):

191/191 Files detected = 100%

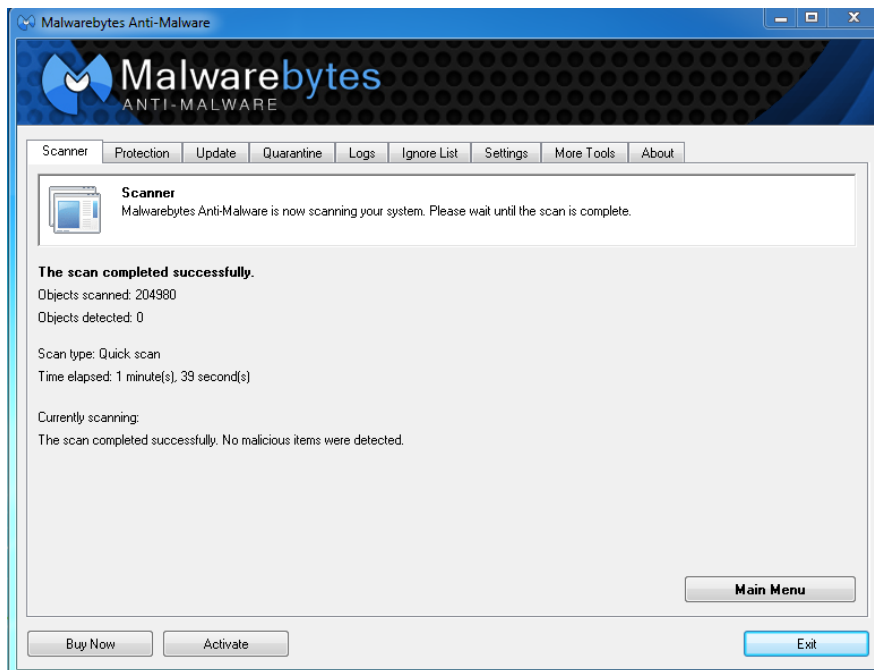

### Caught Later By Behavioral Blocking, Firewall, Etc.:

- I'm going to get another pack of malware since emsisoft detected all files and hopefully it leaves some files behind!
- I got 29 fresh "0 day" files and it detected 26/29, so it left 3 behind, which is good enough to see if behavioral blocking works!
- I ran the 3 files and online armor blocked 2 out of 3 files, the last file online armor told me to investigate, so I still clicked block, but I'm counting it as a miss because an average user would most likely click allow if it was for his/her purposes.

### **Hitmanpro and Malwarebytes results after behavioral blocking test:**

## **5 Star Rating:**

- |   |                 |
|---|-----------------|
| • <b>1 Star: User-friendly:</b>               | <b>1/1 Star</b> |
| • <b>1 Star: Low Ram Usage, 60mb or less:</b> | <b>1/1 Star</b> |
| • <b>1 Star: 24/30 Web Links, 80%:</b>        | <b>1/1 Star</b> |
| • <b>1 Star: Detection 85%+:</b>              | <b>1/1 Star</b> |
| • <b>1 Star: Behavioral Blocking, 50%+:</b>   | <b>1/1 Star</b> |

**5/5**

**Stars**

## **Summary:**

### **Advantages:**

- **Light on ram and system**
- **Nice and easy user interface**
- **Scanning and removal is pretty quick**
- **Best detection rate I've seen**

- **Amazing web blocking. It's also quick because usually antivirus's try to scan the new html's, but emsisoft just kept blocking without any lags or scanning.**

**Disadvantages:**

- **According to my testing's "none," but I did hear people complaining about online armor keeps asking to "investigate file" rather than decide for itself!**

**According to my testing's, Emsisoft, so far is one of the best I've tested because it literally got a 100% on everything. I would definitely recommend this antivirus to users!**

**Thanks for reading!**
