5 Star Rating:

- **1 Star: User-friendly: 1/1**
- **1 Star: Low Ram Usage, 60mb or less: 1/1**
- **1 Star: 24/30 Web Links, 80%: 0/1**
- **1 Star: Detection 85%+: 0/1**
- **1 Star: Behavioral Blocking, 50%+: 1/1**

3/5

Summary:

Advantages:

- Really low ram usage, almost nothing!
- Nice and easy user interface
- Behavioral Blocking seemed to work
- Really quick scanning and removal

Disadvantages:

- Not good at web blocking
- Detection rate needs improvement since files are 4 days old!

According to my testings, Webroot did an ok job because blocking web links is literally the most important thing, but it failed to do so. Also, on 4 day old files should of been easy for webroot to atleast get a 85% or higher. I would not recommend this antivirus to users until they improve, then it will be a good product.
